**A Noorvik** resident tested positive for COVID-19 on May 4, 2022 in Noorvik. The individual has mild symptoms and not linked to known positive COVID-19 case. They are in isolation in Noorvik.

**Four Shungnak** residents tested positive for COVID-19 on May 4, 2022 in Shungnak. Some have mild symptoms, while others are asymptomatic, linked to known positive COVID-19 case, and community spread. They are in isolation in Shungnak.

While some communities throughout the Maniilaq service area may not have *known* active positive COVID-19 cases currently, it is important to continue to stay vigilant and follow recommended preventative measures.

We need your help in slowing the spread. We all play a part in keeping our loved ones safe. **The power of simple tools such as getting vaccinated, social distancing, avoiding gatherings, wearing a mask and hand washing make a difference.**

Maniilaq Public Health Nursing is working with the State to conduct contact tracing and will reach out to anyone who may have come into significant contact with these cases. If residents believe they have been exposed to COVID-19 and develop a fever and symptoms, such as a dry cough or difficulty breathing, call your healthcare provider for medical advice or call Maniilaq's COVID-19 Hotline at 833-442-7015. The following symptoms may appear 2-14 days after exposure:
